

**For Immediate Release**

## **Liber8Now Achieves Multiple Gunshot Detection Milestones**

*GSR8 V1.0 Released, Successful Deployment, At Revenue*

**May 5, 2025**

**Atlanta, Georgia.** Liber8Now, Inc. announced today that the startup company has surpassed sufficient milestones to enable company status to transition from startup to viable company. The company was formed in September 2023.

Todd Cripe, Liber8Now CEO, stated: “Over the past couple of months, Liber8Now has gone from having an intangible great idea to being a company with an in-demand tangible product. This isn’t the founders’ first time in a startup venture, so we made a conscious decision to not pursue outside funding for our venture until we had something tangible to share with potential investors. A tangible product is much more interesting than an intangible concept, so we are now able to transition from Founder bootstrap funding to actively pursuing funding options that will allow us to manufacture the innovative GSR8 at scale.”

Cripe added: “There are many opinions on what metrics are the correct ones to use when determining if a startup company has made the transition to a “real” company. We believe Liber8Now has surpassed the consensus metrics required including:

- Release of GSR8 Version 1.0.
- Establishment of Indirect Sales Channel.
- Receipt of initial order for GSR8 devices.
- Deployment of GSR8 in a VA Hospital.
- Satisfied, referenceable end user.
- Liber8Now is “at revenue.”

**About Liber8Now:** Liber8Now, Inc. is a Delaware Corporation headquartered in Atlanta, Georgia. We provide innovative and effective solutions that increase the likelihood of surviving an active shooter incident.
